

Qiguo Tian

Polar Research Institute of China, Antarctic Astronomy Division

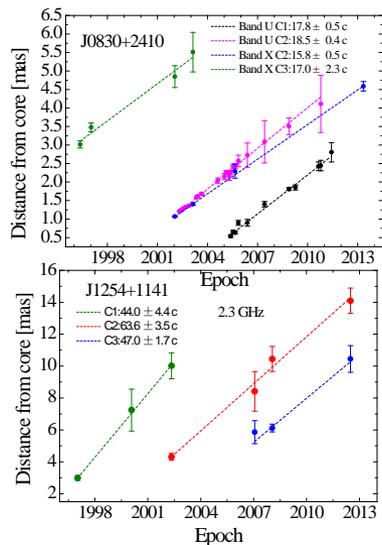

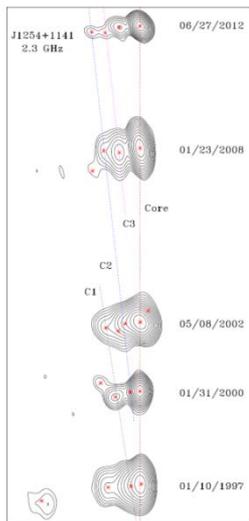

Astronomy Traverse Member of 29th CHINARE
(Chinese National Antarctic Research Expedition)

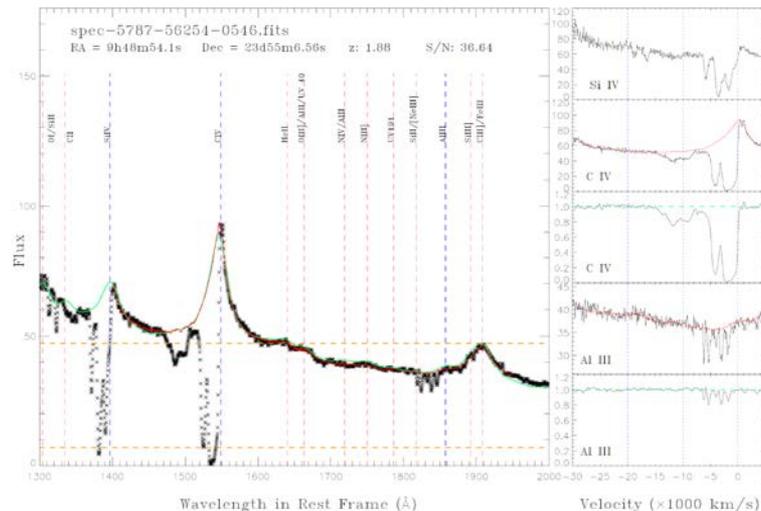

Apparatus
Design & construct

A high-sensitivity angle and energy dispersive multichannel
electron momentum spectrometer with 2π angle range

Superluminal motion in Highly Relativistic Jet NLS1 Galaxy:
J0830+2410 & J1254+1141

Al III absorption line in more than half high-ionization BAL quasars
